

PRESS RELEASE

Germany's tallest residential building: Zabel Property AG is exclusive sales partner for “Grand Tower” in Frankfurt am Main

Berlin/Frankfurt, 16 March 2016 – Zabel Property AG is the exclusive sales partner for the 401 apartments in Germany's tallest residential building, developed by gsp STÄDTEBAU. "We expect a great deal of foreign interest in sales in Grand Tower in Frankfurt am Main, and our international sales network makes us perfectly placed to service this interest," explains Thomas Zabel, CEO of Zabel Property AG. "With its expertise and exclusive international network, Zabel Property AG is an ideal partner to generate interest in our project from international buyers," says Jürgen Blankenberg, CEO of gsp STÄDTEBAU.

Premium apartments with concierge service

This 172-meter-high residential tower is being developed at the entrance to the Europaviertel quarter to a plan by architects Magnus Kaminarz & Cie. It will comprise a range of residential units, from space-efficient apartments via spacious duplex and family apartments through to exclusive penthouses. Alongside a private dining room and cooking space, residents will also have the use of an 800-square-meter shared terrace. To complete the experience, an in-house concierge service will take care of day-to-day jobs as required and look after necessary maintenance on site.

About Zabel Property AG

Zabel Property specializes in advising international customers on the purchase of premium apartments. Its team speaks 15 languages between them, is familiar with the questions and expectations of international real estate buyers and meets the most exacting customer requirements. With over 25 years' experience, excellent contacts with developers, exclusive networks, cultural ability and first-rate service, the Zabel Property team guides customers safely to their goal.
